

W6ASH transferred to SPECS

July 20, 2003

To Whom It May Concern:

It is my desire to bequeath my amateur radio call sign (W6ASH) to the Southern Peninsula Emergency System Repeater Association. I have been trustee for the 145.27 repeater since it was started and I would like my successor trustees to be able to use my call if they desire.

73,

Walter A. Read

November 15, 2004

My dear ham radio friends, I am sad to tell you that my loving husband Walt passed away last Thursday, November 11, 2004. Ham radio was a big part of his life and as you know, he was especially interested in emergency communications. As the long time trustee of the SPECS repeater association, I know that Walt would be honored if you continue to use his call sign (W6ASH) for the repeater. Thank you all for your support.
